Section 6 – Student Health

Please use the space below to list any pre-diagnosed illnesses or other medical issues from which your child suffers:

- Academic programme – your child will join adult classes and will be mixing with students from the age of 16 – the average age of our students is 22. Your child needs to have the maturity to cope with this environment. We expect under-18 year olds to attend all their lessons. Absences will be followed up immediately. Please e-mail us if you are aware that your child can't come to class, or if you have any concerns about their attendance or progress.
- Accommodation – we organise accommodation for under-18s with one of our carefully selected host families. Your child will be expected to obey the rules of the family throughout their stay including observing a curfew time of 10.30pm. As we are responsible for your child's stay from the moment they arrive in Ireland to the moment they leave, we require details of their transfer to and from their accommodation / airport if you have not requested that this be organised by ULearn.
- Social programme – ULearn runs a busy social programme and we require all students under 18 to join in order to ensure they're fully occupied during the daytime and on weekends. In the months of July and August, there are activities every afternoon, Monday to Friday, and one daytime excursion either on Saturday or Sunday. Some of these activities require a payment, which is not covered in the cost of your child's course and accommodation. ULearn expects parents to provide their child with the funds necessary to participate in the social programme. When a student does not participate in any activity, the parent(s) must inform the school and ensure their child has an alternative activity scheduled. We will also run events in the evenings, some of which are suitable for adult students only. Your child will be informed about laws on alcohol and any other areas which will affect them as part of their first day induction, and will be told which evening activities they will not be able to join. Evening activities are not compulsory for your child.
- Free time – whilst we will do all we can to make sure your child is safe and happy they will have several hours unsupervised free time each week. It is their responsibility to look after themselves during this time, and so you need to be sure that your child is mature enough to benefit from their time in Dublin. Please let us know if you have any concerns about your child's welfare.
- Health and safety – part of our responsibility to ensure that your child stays safe throughout their time with us is to make sure that we are able to deal with any instances of sickness that arise. It is therefore a requirement that our under-18s have medical insurance that covers their stay with us (for EU students this can be though the EHIC system). By signing this document you agree to our administering any emergency first aid as required.

☒I agree that the school or host family may provide my child with first aid in an emergency situation

☒I agree to my child's host family giving my child permission to stay out past a curfew time of 10.30

☒I have read, understood and accept the requirements detailed above, and confirm that my child has the maturity to participate in a course at ULearn English School as an independent individual
